

FOR IMMEDIATE RELEASE:

Evolutions to Provide Practice Management Services to Florida Radiology Consultants

St. Louis, MO, May 17, 2004 -- Tom Long, President and CEO of Evolutions, a leading practice management and medical billing solutions provider, announced recently the company has signed a contract to provide practice management services to Florida Radiology Consultants based in Fort Myers, FL.

Florida Radiology Consultants, a 17-physician radiology group, serves the medical community and citizens of southwest Florida with the latest advances in diagnostic imaging. For over three decades, the physicians at Florida Radiology Consultants have earned a reputation as area leaders for accurate diagnostic imaging and prompt reporting. Today, hundreds of medical professionals rely on the group to interpret virtually every type of imaging from lung and heart scans to musculoskeletal, abdominal and brain scans.

"We are very pleased to add this group of radiologists to our growing client family," said Mr. Long. "The Florida Radiology Consultants group has an excellent reputation in the healthcare industry, and we are gratified they selected us as their practice management services provider," Mr. Long added.

Evolutions, headquartered in St. Louis with regional offices in Cape Girardeau, MO and Evansville, IN, provides high quality and responsive medical billing solutions to its client base of radiologists, radiation oncologists, imaging centers and other medical specialties located throughout the U.S. The company has working relationships with four Medicare intermediaries, Blue Cross/Blue Shield, United Healthcare and several other major healthcare insurance companies.

Evolutions' billing solutions entail much more than producing bills for medical providers. The company's enhanced billing solutions, which are totally HIPAA-compliant, have reduced days in A/R for many clients by 35 percent. Payment denials have been reduced by as much as 18 percent due to the company's unique claims data scrubber that checks for missing data elements, transpositions and illogical information. Professional coders also examine each claim submitted by Evolutions to insure that all coding is at the appropriate and correct level. The company also monitors trends in its clients' claims submissions and when they discover recurring anomalies, they provide client training to correct the problem.
