

FOR IMMEDIATE RELEASE:

Evolutions Selected as a Vendor by Washington University Physicians Network

St. Louis, MO, October 8, 2004 -- Tom Long, President and CEO of Evolutions, a leading practice management and medical billing solutions provider, headquartered in St. Louis, MO, announced recently the company has become a vendor for the Washington University Physician's Network's (WUPN) Group Purchasing Program. WUPN is an Independent Physician Association composed of the faculty physicians at the Washington University School of Medicine and over 500 independent physicians practicing in the St. Louis metropolitan area. A partner with Evolutions in this venture, and also a WUPN vendor, is Catapult Technologies. Catapult Technologies is a leading Information Technology solutions provider in the St. Louis market, and will be the exclusive interface for the introduction and implementation of Evolution product technologies.

The Evolutions/Catapult partnership will provide two product offerings to WUPN community physicians.

The first is a web-based IDX GroupCast medical billing system which also includes the Ingenix Claims Manager™ used for claims scrubbing. This solution allows a physician's office to access Evolutions' software via the Internet with a secure, HIPAA-compliant connection and do their own billing for a fraction of the cost of purchasing a system. The second offering is a complete medical billing solution where the physician's practice outsources its billing services to Evolutions.

"We are very pleased to have been chosen as a vendor for this prestigious group of physicians," said Mr. Long. "They have an excellent reputation in the healthcare industry, and we are gratified they selected us as vendor for billing solutions. Both Evolutions and Catapult do all of our work in the St. Louis area. We do not send any of our programming or processing off shore," Mr. Long added.

Evolutions, headquartered in St. Louis with regional offices in Cape Girardeau, MO and Evansville, IN, provides high quality and responsive medical billing and practice management solutions to its physician client base located throughout the U.S. The company has working relationships with five Medicare carriers, Blue Cross/Blue Shield, United Healthcare and several other major healthcare insurance companies throughout the country.

About Evolutions

Evolutions can trace its history back 25 years. The company provides comprehensive medical billing solutions that are HIPAA-compliant and reviewed by certified coders. Evolutions also uses state-of-the-art electronic claims submission and offers an aggressive accounts receivable management program that guarantees to exceed the national average collection standards. The company operates on an at-risk basis and no capital expenditure is required for clients.
