

FOR IMMEDIATE RELEASE:

Evolutions Announces New Medical Transcription Service

St. Louis, MO, March 11, 2005 -- Tom Long, President and CEO of Evolutions, a leading practice management and medical billing solutions provider, headquartered in St. Louis, MO, announced recently the company has added a new medical transcription service called Breakthrough. Breakthrough offers transcription services to healthcare providers through a national and global network of transcription resources connected and managed with an advanced Internet-enabled workflow monitoring system. Breakthrough is able to handle small customers or large, high volume providers that require huge lines of transcription with speed and accuracy. The service is ideally suited for single offices, larger clinics or multi-facility health systems.

Breakthrough uses state-of-the-art network technologies for secure, HIPAA-compliant access, and providers can use their current dictation system to transmit critical patient medical information. Breakthrough enables physicians to concentrate on their core competencies, control costs, preserve capital, and avoid additional investments. The transcripts are delivered to meet the specific needs of each provider. The Breakthrough staff works 24/7, 365 days per year, so transcription needs can be met in less than 24 hours.

"We are very pleased to add this valuable service to our product offering," said Mr. Long. "Our goal is to provide our clients with a one-stop, complete service package, and Breakthrough brings us one step closer to that goal," Mr. Long continued.

Evolutions, headquartered in St. Louis with regional offices in Cape Girardeau, MO and Evansville, IN, provides high quality and responsive medical billing, practice management and transcription solutions to its physician client base located throughout the U.S. The company has working relationships with five Medicare carriers, Blue Cross/Blue Shield, United Healthcare and several other major healthcare insurance companies throughout the country.

David P. Seifert is the United States representative for Breakthrough. Mr. Seifert is President of the Alexander-Seifert Consulting Group and the retired President and CEO of St. Anthony's Medical Center in St. Louis, MO.

About Evolutions

Evolutions can trace its history back 25 years. The company provides comprehensive medical billing solutions that are HIPAA-compliant and reviewed by certified coders. Evolutions also uses state-of-the-art electronic claims submission and offers an aggressive accounts receivable management program that guarantees to exceed the national average collection standards. The company operates on an at-risk basis and no capital expenditure is required for clients.
